# Pathways Beyond School

Preparing students  
for university and  
life

**St Edward's**  
COLLEGE  
FOUNDED. 1929

Our Sixth Form programme is designed to prepare students not only for academic success, but for the challenges and opportunities of life beyond school. We support young people as they develop independence, confidence and a strong sense of responsibility for their learning and future choices.

Through the International Baccalaureate Diploma Programme, students cultivate critical thinking, intellectual curiosity and global awareness. A broad, balanced curriculum is complemented by dedicated guidance in subject selection, university applications and career planning, enabling students to make informed and ambitious decisions about their next steps.

Strong academic teaching is underpinned by comprehensive pastoral support, ensuring that students feel challenged yet supported throughout this important stage. As they prepare for university and adulthood, our students leave St Edward's College as well-rounded, reflective and resilient young adults, ready to contribute positively to the wider world.
