Assessment, Progress & Reporting

Clear feedback.
Meaningful progress

St Edward's
COLLEGE
FOUNDED. 1929

At St Edward's College, we believe that assessment should support learning, not define it. At St Edward's College, assessment is used thoughtfully to help students understand their progress and identify areas for growth.

Progress is monitored through a combination of ongoing classroom assessment, coursework and, where appropriate, formal examinations. This balanced approach allows teachers to gain a full picture of each student's development over time. This progress is visible to the parents constantly on MySchool and in the Early Years also on the website through personalised access.

Parents are kept informed through:

- Regular written school reports
- Scheduled parent-teacher meetings
- Ongoing communication where concerns or achievements arise

Our reporting is clear, constructive and focused on progress, effort and attainment. Where additional support or challenge is needed, this is identified early and discussed in partnership with parents.

We are committed to transparency and open dialogue, ensuring that families feel informed, supported and confident in their child's educational journey.

Where the feedback is clear, the process is meaningful.
